

STEFANO MARIZZA, a young collaborator of the Trieste Università Popolare, passed away in December 1996, was considered one of the most brilliant students in his pianoforte course at the "Giuseppe Tartini" Conservatory of Music of Trieste. He was born in Fogliano on the 9th December 1969 and began to study piano under the guidance of Ms Gianna Visintin. In 1988, he became Mr Massimo Gon's student at the Trieste Conservatory, where he was awarded a diploma with first-rate marks in 1995.

In 1994, Stefano graduated with honours in literary studies at the Faculty of Education in Trieste, and the following year he enrolled in a teacher-training Degree course. He joined the staff of the Trieste Università Popolare in January 1996 and after many years of collaboration, he was considered one of the University's emerging talents. During his frequent journeys to Istria and thanks to his many contacts, he established important relations with the Italian communities, who particularly appreciated and respected him.
